

CSC 230-01 Modern Prog Applications Spring 2018

Assignment 1

What to hand in

Create a folder called “Assignment_1”. Inside the folder, create a folder for each program and deposit the source code to the corresponding folder. Use packing software to pack “Assignment_1” to a packed file, such as “Assignment_1.zip” or “Assignment_1.tar”. Submit the packed file through the blackboard.

Due Date

12:00 midnight, Feb 2, 2017.

Program 1: Complete the following code, it should print out a two-column table, in which all items in each column are aligned either to left or right.

```
1. /* Complete Code
2.  * CSC 230
3.  */
4.
5. public class Info
6. {
7.     public static void main(String args[])
8.     {
9.         //print out your name, address, banner id, major
           with the following format
10.             //   Name:           Lin Chen
11.             //Address: E.V. Wilkins 112
12.             //   Major:           CS
13.             //   UIN:             970*****
14.     }
15.
16. }
```

Program 2: Write a Java program to print out an introduction on the screen, which includes an introduction of yourself, such as name, major, why do you take Java, and what is your plan for your future
